

SM 4100 RVS

SM 5100 D RVS

Most important features:

- 1 to 5 feed spaces, single and double sided
- Complete manufactured from high quality type 304 stainless steel
- Stainless steel trough raised from the floor – to allow for more effective cleaning
- The angle of the front of the trough allows the pig to stand close and eat in natural position
- Additional lower bar incorporated into feed space dividers
- Ingenious anti-spill rim, prevents feed spilling
- Anti-spill rim closes completely inside the trough for optimal hygiene and no stuck ear tags
- Constructed using very strong stainless steel rivets that will not work loose in the way that nuts and bolts do in the long term
- Slide adjustment for very accurate and easy adjustment. A slide adjustment saves time
- Heavy weight feeder designed for long life

The 100% stainless steel dry feeder is ideal for all types of dry feed, including mixes with 35% CCM. The feeder is specially designed for animals weighing between 20 and 120 kg. The large bunker volume and the variety of models makes this dry feeder ideal for feeding any size group of animals from large to small. All feeders are also available in double versions.

Guarantee: 7 Years on construction- and material faults.

Options: Mounting angles, stainless steel U-profiles, lid, spindle adjustment, CCM-slide, stud plate for under the feeder, drinkers
